Keith L. Wapner, MD, FAAOS, FACS, FAOA is Clinical Professor of Orthopaedic Surgery at the University of Pennsylvania, Chief of the Division of Foot and Ankle Surgery, Past Director of the Foot and Ankle Fellowship Program at the University of Pennsylvania, Adjunct Professor of Orthopedic Surgery at Drexel College of Medicine and Past President of the American Orthopedic Foot and Ankle Society. He obtained his undergraduate degree from the University of Pennsylvania and completed medical school at Temple University School of Medicine. He did a Surgical Internship at the University of Pennsylvania, then did a year of research at the McKay Orthopedic Laboratory of the University of Pennsylvania and completed his Orthopaedic Residency training at the University of Pennsylvania. He then did a Joint Reconstruction Fellowship with Thomas Mallory, MD (Ohio State University), and then a Foot and Ankle Fellowship with Roger Mann, MD (University of California San Francisco).

He started the Foot and Ankle Orthopedic Service at Thomas Jefferson University in 1986 and then moved to become the Chief of the Foot & Ankle Service at the University of Pennsylvania Department of Orthopedic Surgery in 1998 and served as Director of the Foot & Ankle Fellowship at there until 2017. He has chaired courses for the American Academy of Orthopaedic Surgeons, The American Orthopedic Foot and Ankle Society and serve as a board examiner for the American Board of Orthopaedic Surgery.

He has published over 100 peer-reviewed manuscripts and have authored 41 book chapters. He served as a reviewer for Foot & Ankle International, Clinical Orthopedics and Related Research, the American Journal of Sports Medicine, the Journal of Bone and Joint Surgery, and the Journal of the American Academy of Orthopaedic Surgery. In addition, he has given over 300 scientific presentations on Foot and Ankle Surgery in the United States and around the world. He has participated in the development of novel surgical techniques and the development of multiple novel Orthopedic devices in the field of Foot and Ankle Surgery.
