

Lung Cancer Screening: What You Don't Know About This Screening, But Should

Date: Monday, December 18, 2023

Time: 12–1 pm (Eastern Time)

Lung cancer is the leading cause of cancer deaths among both men and women in the United States. However, most people do not know much about screening for it. We will review why lung cancer screening is such an effective test, but remains underutilized. We will also discuss the newest initiatives to increase access.

- This program is free and open to Mass General patients, families, staff, and the general public.
