

Sjögren's Disease or *Sjögren's Diseases*: Why One Size Doesn't Fit All

Date: Thursday, December 12, 2024

Time: 12–1 pm (Eastern Time)

Sjögren's disease is an autoimmune condition that often causes dry eyes and mouth, but can also impact nearly every organ in the body. Symptoms and severity can vary greatly from one patient to another. In this talk, we will explore the challenges in diagnosing this complex disease, how it presents differently across patients, why traditional treatments may not always be effective, and recent advancements in diagnosis and treatment.

Featured Speaker: Brandon Law, MD

Dr. Law is a rheumatologist in the Division of Rheumatology, Allergy, and Immunology at Massachusetts General Hospital. He is also a member of the Center for Immunology & Inflammatory Diseases. Dr. Law currently performs basic science and translational research in Sjögren's disease.

- This program is free and open to Mass General patients, families, staff, and the general public.
