

Raynaud's Phenomenon: Diagnosis and Management

Date: Tuesday, January 16, 2024

Time: 12–1 pm (Eastern Time)

In this talk, we will provide an overview of Raynaud's phenomenon – how it is classified, the clinical features often associated with an underlying connective tissue disease, and its management options.

Featured Speaker: Belen Arevalo, MD

Dr. Arevalo is a rheumatologist at Mass General. She completed her Internal Medicine training at Mount Sinai St. Luke's - Roosevelt (renamed Morningside/West) in New York, and fellowship training in Rheumatology at The University of Chicago. Her clinical and research interests revolve around the field of vasculitis. This interest stems from seeing many patients with various vasculitides and her involvement in research projects on heart risks in different rheumatic conditions, including vasculitis.

- This program is free and open to Mass General patients, families, staff, and the general public.
