

Climate Change and Health Series

Climate Change Challenges in 2024 and Beyond

Date: Tuesday, June 25, 2024

Time: 12–1 pm (Eastern Time)

Climate change challenges are increasing each year with the warming of the planet. Heat exposure is a challenge and other health consequences including exposure to poor air quality are increasing annually. This presentation will offer a lens on health consequences of climate change in 2024 and beyond.

Featured Speaker: Suellen Breakey, PhD, RN

Dr. Breakey is a Distinguished Teaching Associate Professor in the School of Nursing at the MGH Institute of Health Professions (IHP) in Charlestown, MA. She is also the Associate Director of the Center for Climate Change, Climate Justice, and Health at the MGH IHP. Her clinical background includes global health and critical care nursing. Dr. Breakey teaches in the Doctor of Nursing Practice and Accelerated BSN programs with a focus on ethics, evidence-based practice, and population health.
