

Caring for the Whole Person: The Role of Palliative Care and Hospice

Date: Monday, November 18, 2024

Time: 12–1 pm (Eastern Time)

In this session, we will discuss the role of palliative care and hospice in supporting patients with serious illness and their families. Specifically, we will review the many ways that palliative care can support patients of any age and at any stage of illness. We will also discuss the role of hospice care in supporting patients and their families at the end of life and what types of services are included with this care.

Featured Speaker: Elizabeth Lindenberger, MD

Dr. Lindenberger is a Geriatrician, Palliative Medicine Physician, Associate Physician at Massachusetts General Hospital (MGH). She is also the Medical Director of the MGH Continuum Project within the Division of Palliative Care and Geriatric Medicine. Over the past 20 years, Dr. Lindenberger has worked to improve the care of older adults and those with serious illness through educational innovation and program development. In her role as Medical Director of the MGH Continuum Project, she oversees a comprehensive program training and supporting clinicians caring for patients and families facing serious illness.
