

# Multiple Sclerosis As We Age

**Date:** Monday, October 28, 2024

**Time:** 12–1 pm (Eastern Time)

Join Dr. Giovanna Manzano to learn about multiple sclerosis as we age. She will discuss the impacts of multiple sclerosis through time with a focus on disease activity and "gray matter" symptoms. Dr. Manzano will also review treatment considerations as we age.

## Featured Speaker: Giovanna S. Manzano, MD

Dr. Manzano is a multiple sclerosis specialist, neuroimmunologist, and neurohospitalist who sees patients at Massachusetts General Hospital and Brigham and Women's Hospital. She is the Director of Quality Improvement of the MGH Neurology Department's Division of Neuroimmunologic and Neuroinfectious Diseases and is also teaching faculty for the Mass General Brigham neurology residents and Harvard Medical School students during their neurology clerkship at Brigham and Women's Hospital. Her clinical and research interests focus on clinical trial design and patient-reported outcome measures for patients with multiple sclerosis, MOG-AD, autoimmune encephalitis, neuro-rheumatologic conditions, and immunotherapy-mediated neurotoxicities.

- This program is free and open to Mass General patients, families, staff, and the general public.
