

Cancer Center Series

Advanced Ovarian Cancer: Diagnosis, Treatment, and Future Directions

Date: Wednesday, October 16, 2024

Time: 12–1 pm (Eastern Time)

This program will cover everything from diagnosis, to genetic testing, to treatment of advanced ovarian cancer. In addition, we will review how treatment side effects are managed and what typical surveillance after treatment looks like. Lastly, we will discuss future directions in advanced ovarian cancer treatment.

Featured Speaker: Jenny Filipi, MSN, NP

Jenny has worked at Massachusetts General Hospital for 14 years. First, as a clinical research coordinator in pediatric radiation oncology (cancer), then as a floor nurse on a medical oncology unit. She is currently a nurse practitioner in medical gynecologic oncology, where she has found her passion in caring for women with ovarian, endometrial, vaginal, and cervical cancers.

- This program is free and open to Mass General patients, families, staff, and the general public.
