Scan to Learn More

MESH Network | Innovation Bootcamp | Innovation Grand Rounds

Innovation MESH Network

On-demand learning and networking platform for clinicians and researchers on the fundamentals of innovation. Open to all Mass General Brigham staff.

MESH Core Healthcare Innovation Bootcamp

Investigator-built, on-demand course, housed on the MESH Network site, designed for clinicians and researchers of all skill levels and career stages. This course covers foundational knowledge including:

- basics of the invention process
- creating a new company
- digital health landscape
- intellectual property & licensing fundamentals

MGB Innovation Grand Rounds

Monthly, system-wide innovation education and discussion forum for Mass General Brigham inventors interested in maximizing innovation in their research and invention efforts. Upcoming session topics include starting your own company, diversity in innovation, venture investment, and a series of up-close looks at clinical innovation in orthopedics, cardiovascular disease, regenerative medicine, radiology and more.

MESH CORE | In-person Bootcamp

2024 Update

- Over 330 attendees from 10 countries, with live translation – **SOLD OUT**.
 - 60% external to MGB, 40% internal.
- **Key topics:** healthcare innovation, AI, venture, digital health, startup pitches, extended reality, GCT, and more. **Extensive networking.**
- Social media buzz: "Life-changing", "career-altering", "transformative."
- **20+ lectures and 3 panels over 2 days**
 - Key speakers: Shiv Rao (CEO, Abridge), John Abele (Founder, Boston Scientific), Jag Singh, Adam Landman
- **Sponsored** by Huimei Healthcare, Danish Government, Fish & Richardson, Harvard, MIT, and others.

2025 MESH CORE (May 12th and 13th, Assembly Row)

- Introducing **CME accreditation**
- **50%+ new content** and sessions
- Survey-driven improvements based on attendee feedback to deliver an even better experience in 2025.

outcomes

Builds an
innovator community

MGB Commercialization and Inclusive Leadership Program

CILP provides a customized executive education experience for new and potential innovators. We aspire to reach the most amount of innovators over time and build an inclusive and impactful innovation community at Mass General Brigham.

Who should apply?

- New and early-stage innovators including clinicians, researchers, and clinical staff
- Individuals who
 - have not executed a license at MGB
 - are motivated to accelerate their innovation journey
 - want to be a part of the Innovator Community at MGB

Commercialization and Inclusive Leadership Program (CILP)

Cohort IV Details

- **Hands-On Learning-** practical, hands-on experience.
- **Collaboration with Katie Coffman, PhD**
 - Harvard Business School Professor and IGD Special Advisor.
 - Features an HBS case study and negotiation exercise.
- **Enhanced Content for Greater Impact**
 - Aimed at growing, diversifying, and improving the quality of the innovator community.

CILP Cohort IV is scheduled for **Monday, June 6th 9AM – 4:30PM** at Assembly Row (399 Revolution Drive, Somerville, MA).

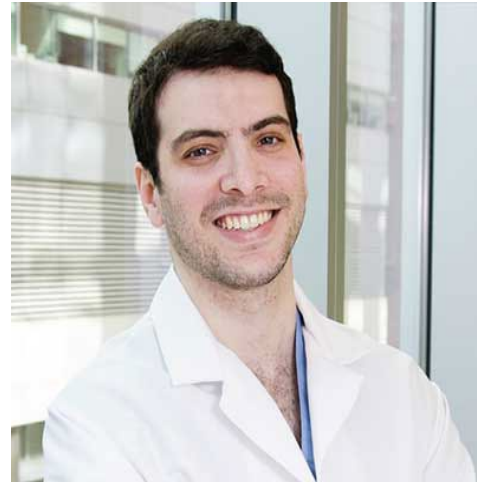

Nominate yourself or a colleague now to gain early access to the program application!
